

Beveldine LLC warrants all materials, workmanship and labor for the stained glass for a period of one year from the date of installation. This is the industry standard warranty period during which any weaknesses that could lead to glass cracks or breaks will have revealed themselves.

During the warranty period Beveldine LLC will repair or replace, at no charge what proves to be defective because of improper material or workmanship.

The warranty does not cover any problem that is caused by human intervention or acts of god. We reserve the right to address small leaks with on sight additional putty application. When there is no protection from driving wind and rain, in extreme weather conditions water may seep around the putty filled lead.

To obtain warranty service you must contact us to determine the problem and the most appropriate solution.
